What is Math Club?

Math Club has been totally revamped for this year, so prepare yourself for Math Club like you've never seen!

We meet every Monday in **this** room, room 227!

What does Math Club do?

Every week we will introduce a new concept and teach it.

What does Math Club do?

Every week we will introduce a new concept and teach it.

We will always have worksheets to work on instead for any students who already know the topic, or for any students who are in a lower grade and don't have the prerequisite knowledge.

What does Math Club do?

Every week we will introduce a new concept and teach it.

We will always have worksheets to work on instead for any students who already know the topic, or for any students who are in a lower grade and don't have the prerequisite knowledge.

So if you're in grade 9 we don't expect you to follow along with a lesson requiring calculus, but you can certainly try!

Guest lectures

We are introducing a new program to Math Club this year: guest lectures.

Guest lectures

We are introducing a new program to Math Club this year: guest lectures.

Are you really excited about something in math?

Guest lectures

We are introducing a new program to Math Club this year: guest lectures.

Are you really excited about something in math?

Want to discuss the latest discoveries in mathematics?

Guest lectures

We are introducing a new program to Math Club this year: guest lectures.

Are you really excited about something in math?

Want to discuss the latest discoveries in mathematics?

Then sign up to be a guest lecturer! We will work with you to design a lesson which you can teach at Math Club! And we made sure to give it a really fancy sounding title to put on your university applications.

Sign up

You can now sign up for Math Club.

Go to:

`mackenziemathclub.github.io`

And click on **Join the math club**

Sign up

You can now sign up for Math Club.

Go to:

`mackenziemathclub.github.io`

And click on [Join the math club](#)

Once that is done, you can also click on [Apply to be a guest lecturer](#). This is a longer form, so we recommend that you do it at home. There is no rush to fill out the guest lecturer form, and it is completely optional.
